

Verist RiskSphere

A connected, client-centered suite of services that extends Verist risk control from insurance support to offering holistic, comprehensive risk management solutions.

RiskSphere offers our clients a broader risk solutions partner

- Connected and collaborative model
- Offers proactive risk analysis and prevention preparedness
- Training and micro-learning
- Compliance and risk insights
- Safety Systems Design and Testing

RiskSphere is not a separate story from Verist's brand; it is the commercial expression of an integrated and holistic approach to insurance and risk management.

Why It Matters?

Clients increasingly need more than policy coverage. They need practical risk management support that helps them anticipate issues, reduce preventable losses, and respond faster when exposures emerge.

Start with underwriting, actuarial and claims insight

RiskSphere is designed so the client experiences one connected proposition.

Add risk advisory-led client support

RiskSphere brings structured services around design, training, prevention, planning, and AI-enabled risk insight.

Deliver a fuller commercial partner-enabled solution

Selected third-party partners extend capability in areas where specialist depth is essential.

A holistic partner-enabled risk management suite

RiskSphere allows Verist to remain the trusted client relationship lead while extending the offer through specialist vendor partners in areas where technical depth, field execution, or advanced technology capability is essential.

Verist orchestrates a complete risk advisory solution for clients

RiskSphere is designed as a connected comprehensive program, which covers all safety related practices with state-of-the-art analysis tools; giving clients access to practical services across prevention, compliance, preparedness, and data-driven insight.

Differentiate the Verist proposition

Move beyond a traditional risk control story into a broader market-facing advisory platform.

A smarter, fuller risk management offer is coming to market

RiskSphere gives Verist a differentiated way to support clients with practical advisory services, specialist partner capabilities, and a more complete risk conversation.

Keep the model client-centered

Anchor the service in practical client outcomes across compliance, prevention, preparedness, and insight.

Blend Verist and partner capability

Combine internal expertise with selected vendor partners to offer a wider suite of risk management services.

RiskSphere gives clients a fresh commercial story built around integrated support, specialist reach, collaborative partnerships, and expertise they can trust.
